What To Do In Case Of Emergency (or drill)

- 1. Take care of yourself and your family--assess your own needs fi rst!
 - a. If disaster appears wide-spread, turn on emergency AM radio to local news and monitor for any instructions from civil authorities.
- 2. Note damage in your immediate neighborhood. Offer assistance to your neighbors
 - a. Without adding "drama" be able to accurately report level of damage
 - b. Note which utilities seem to be out: water, electricity, gas, TV/Radio
 - c. Assist in turning off (if safe to do so) any leaking gas. If needed, turn off main circuit breakers in damaged houses to prevent shock hazards.
- 3. Make sure all radio accessories (especially batteries) are available and working.
 - a. Transceiver(s) (Identified with your call sign) and extra battery packs
 - b. Flashlight, batteries and spare bulbs
 - c. Notebook, pens and pencils
 - d. Cigarette lighter power adapter and AC power supply & cord
 - e. Battery charger, fast charger preferred
 - f. Credit cards and cash
 - g. Maps
- 4. Tune your ham radio and listen to the assigned frequency:
 - a. 147.555 Stake Primary Simplex frequency ("Stake1") for your local area
 - b. 147.330+ (103.5 PL) "StakeRPT" Stake Repeater to check with wider area
 - c. If needed, channel "Stake2" can be used: 144.510 MHz simplex, no PL
 - d. If needed, channel "Stake3" can be used: 144.550 MHz simplex, no PL
 - e. OPTIONAL or 2nd radio: Listen for City, Fire or Police logistics activity.
- 5. Announce your Amateur call sign. Initiate a Net if none heard.
 - a. Once a Net with others is established, announce your intentions and movements before you do them so you do not become "lost" to the group!
 - b. Assist in relay of information from others that are low power or mobile and cannot be heard well. Announce "relay!" when you are able to help.
- 6. Establish contact with your Ward geocode group on radio, foot, bike, or car:
 - a. Offer radio assistance if needed
 - b. If your neighborhood leader has sufficient radio resources, check with other neighborhood leaders to make sure all have communications capabilities NOTE: Let someone in charge know WHERE you are going. Maintain radio contact if at all possible--don't become the subject of a search yourself!
 - c. Think: does your bishop have a radio communicator available to him? Should it be you? There are no radio communications unless it's two-way!
 - c. If asked, assist in contact with Bishop or Stake leaders for further instruction
 - d. Help with information flow, take written notes of info, date, time
 - e. Do not "interpret" instructions from leaders--you are a conduit, not a source!
